Work Experience

- Software Engineer - intern**
Djäkne Jan 2025 - Apr 2025
Developed a nutrition, coaching and training program with React, including admin dashboard management. Built the backend in Node.js with an AI model for personalization and data analysis for the nutrition, coaching and training program.
- Substitute supervisor in Logistics**
Nim Distribution i Skåne AB Jul 2020 - Aug 2023
As a substitute supervisor in logistics, I focused mainly on parcel handling, where my responsibilities ranged from organizing and supervising picking and packing processes to ensuring prompt and accurate delivery of goods. Thanks to the dedicated team that I led, we were able to optimize the entire package handling flow.
- Logistics employee**
Nim Distribution i Skåne AB Mar 2020 - Jun 2020
I had to pick and pack goods, load goods and sort goods. My time as a logistics employee has shaped me with a strong work ethic and an ability to thrive in tasks that require accuracy and efficiency.
- Software Engineer - intern**
Exakta Sep 2024 - Nov 2024
Focus on development of web solutions with React and TypeScript as well as work with CMS and CRM integrations. Contributed to project deliverables by developing interfaces, improving and ensuring smooth user experience.
